

The Quantum advantage - perfect for offshore cruisers

Easily identify dangerous targets through powerful day and night radar imaging. Raymarine's lightweight Quantum radar includes CHIRP Pulse Compression and is extremely simple to install.

[CHIRP Pulse Compression](#) means more energy reaches each target and results in superior imaging on long ranges and excellent short-range detection with enhanced detail.

[Easy and Simple Installation](#) simply connect a Quantum radar with a Raymarine Axiom MFD via WiFi. Easy to upgrade - Quantum has the same baseplate bolt pattern as previous generation radars, with power supplied by an existing radar power cable.

[Energy Efficient and Lightweight Design](#) offers very low power consumption (17 Watts - transmit and 7 watts - standby) and extended vessel battery life when under sail. It also weighs 50% less than traditional magnetron radars.

Purchase a Quantum Radar package at one of the participating retailers and complete the form provided - we'll send you a Prezzy Card to the value of the 'cash back' indicated below.

Quantum Radar Range			Normal RRP Price Incl	CASH Back
	Part #	Product Description		
	.E70363IC1	Raymarine Axiom 7 Cruising Radar Package with Quantum Wireless Radar and C-Map South Pacific Chart card * Use existing radar cable to power unit * Wireless * Low power consumption	\$4,977	\$1,000
	.E70363IC2	Raymarine Axiom 7 Cruising Radar Package with Quantum 2 Wireless Doppler Radar and C-Map South Pacific Chart card * Use existing radar cable to power unit. Wireless. Low power consumption	\$5,457	\$500
	.RADAIS-IS3A	Raymarine Axiom 7 inch Pacific Cruising Package with Quantum Wireless Radar, Vesper AIS XB-6000, Vesper amplified * Use existing radar cable to power unit	\$6,477	\$578
	.RADAIS-IS3B	Raymarine Axiom 7 inch Pacific Cruising Package with Quantum 2 Wireless Doppler Radar, Vesper AIS XB-6000, Vesper * Use existing radar cable to power unit	\$6,957	\$578
	.QUANTUMCABC3	Raymarine Quantum range cabling kit - 10m Power Cable & 10m Data Cable & for hard wiring system	\$306	\$50

ONLY available through these participating Retailers: **Whangarei** (Empower Electrical, All Marine, Marsden Cove Marina), **Opuā** (Cater Marine, Seapower, Marine Electrics Opuā, Trans Marine Pro), **Auckland – Westhaven** (Nav Station, Beacon Marine, Marine Electrics NZ), **Auckland – Half Moon Bay** (Halfmoon Bay Electrical), **Tauranga** (Smart Marine, Steve’s Marine), **Picton** (Oddies Marine).

Other cash back deals include:

AIS & MOB			Normal RRP Price Incl	CASH Back
	Part #	Product Description		
	.XB8000-IC4	Vesper WatchMate AIS XB-8000 Wifi with VHF splitter and MOB Beacon smartAIS Combo - one x MOB1 * Wifi, Anchor watch, NMEA2000 compatible, Fast 5Hz GPS, MOB alarm, Low power consumption, IPX7 rated with Galvanically isolated USB ports	\$2,438	\$339
	.XB8000-IC5	Vesper WatchMate AIS XB-8000 Wifi with VHF splitter and MOB Beacon smartAIS Combo - two x MOB1 * Wifi, Anchor watch, NMEA2000 compatible, Fast 5Hz GPS, MOB alarm, Low power consumption, IPX7 rated with Galvanically isolated USB ports	\$3,038	\$480
	.XB8000-IC6	Vesper WatchMate AIS XB-8000 Wifi with VHF splitter and MOB Beacon smartAIS Combo - three x MOB1 * Wifi, Anchor watch, NMEA2000 compatible, Fast 5Hz GPS, MOB alarm, Low power consumption, IPX7 rated with Galvanically isolated USB ports	\$3,638	\$621
	.XB8000-IC7	Vesper WatchMate AIS XB-8000 Wifi with VHF splitter and MOB Beacon smartAIS Combo - four x MOB1 * Wifi, Anchor watch, NMEA2000 compatible, Fast 5Hz GPS, MOB alarm, Low power consumption, IPX7 rated with Galvanically isolated USB ports	\$4,238	\$762

AUTOPILOT			Normal RRP Price Incl	CASH Back
	Part #	Product Description		
	.T70112S-IC8	Raymarine EV-200 Sail autopilot, P70S Controller with LS-32 Hydraulic Linear Drive * Maximum 7 tonne Displacement or 549 Nm of rudder torque	\$5,618	\$719
	.T70161S-IC9	Raymarine EV-400 Sail autopilot, P70S Controller with LS-50 Hydraulic Linear Drive * Maximum 22 Tonne Displacement or 2059 Nm of Rudder torque	\$9,188	\$1,532

WIRELESS WIND			Normal RRP Price Incl	CASH Back
	Part #	Product Description		
	.T120-IC12	Raymarine TackTick wireless wind system, Microtalk STNG Hub with Tacktick remote display no mast cable required, very sensitive wind transducer, no wind instrument required can be read on Raymarine MFD, ideal for Wind Vane steering with autopilot	\$2,798	\$1,199
	.T120-IC13	Raymarine TackTick wireless wind system, Microtalk STNG Hub with Tacktick remote display & i60 Wind Instrument as above but includes i60 wind instrument and cable kit	\$3,940	\$1,541

EPIRB & PLB			Normal RRP Price Incl	CASH Back
	Part #	Product Description		
	.E100GPLB1-IC14	Ocean Rescue CAT I E100G EPIRB and one x PLB1 emergency combo * Includes auto release housing, worlds smallest PLB, Proven to save lives, MEOSAR compatible, with 121.5MHz homing beacon	\$1,279	\$130
	.E100GPLB1-IC15	Ocean Rescue CAT I E100G EPIRB and two x PLB1 emergency combo * Includes auto release housing, worlds smallest PLB, Proven to save lives, MEOSAR compatible, with 121.5MHz homing beacon	\$1,858	\$310
	.E100GPLB1-IC16	Ocean Rescue CAT I E100G EPIRB and three x PLB1 emergency combo * Includes auto release housing, worlds smallest PLB, Proven to save lives, MEOSAR compatible, with 121.5MHz homing beacon	\$2,437	\$490
	.E100GPLB1-IC17	Ocean Rescue CAT I E100G EPIRB and four x PLB1 emergency combo * Includes auto release housing, worlds smallest PLB, Proven to save lives, MEOSAR compatible, with 121.5MHz homing beacon	\$3,016	\$670

Terms & Conditions apply: Only open to Island Cruising members (a valid membership number is required). Only one of each kit can be purchased per vessel. Only available at participating retailers listed above. Redemption form must be received by Lusty & Blundell within 30 days of purchase. All redemption forms must have the invoice/proof of purchase attached for us to process your 'cash back' Prezy Card request. Promotions finish at the end of July 2019 or while stocks last.
